SYMPTOMS
If you have any of the following symptoms, you may not enter CPS buildings unless you test negative.
- Fever about 100.0 F, chills, or shaking chills
- Cough (not due to other known causes)
- Difficulty breathing or shortness of breath
- New loss of taste or smell
- Sore throat
- Headache when in combination with other symptoms
- Muscle aches or body aches
- Nausea, vomiting or diarrhea
- Fatigue when in combination with other symptoms
- Nasal congestion or runny nose (not due to other known causes) when in combination with other symptoms

VACCINATION
Vaccination is the best way to protect yourself, your family and friends, and your community. Although breakthrough infections can sometimes occur, vaccines dramatically reduce the risk of hospitalization or death. If you are not sure whether to get vaccinated, please talk with your healthcare provider.

Definition of fully vaccinated: 14 days have passed since you received the second dose of a 2-dose vaccine (Pfizer, Moderna) or since receiving a 1-dose vaccine (Johnson & Johnson). Any vaccine approved by the World Health Organization is accepted in CPS.

CLOSE CONTACTS
In general, a close contact may be a household member or anyone else you spend more than 15 minutes per day with, closer than 6 feet apart per day. However, you are not required to quarantine if any of the following are true:
- Your are fully vaccinated
- Exposure took place outdoors
- You were on a school bus (wearing masks with windows open)
- You were in a school, masked, at least 3 feet apart

TESTING
With a signed consent form, students can participate in three types of COVID-19 testing:
- Weekly COVID-19 safety checks (previously known as pool testing) to detect asymptomatic cases
- Symptomatic testing for students who demonstrate symptoms during the day
- Test and Stay program to test unvaccinated close contacts of a positive case in school. Participating students will test daily at school for 5 consecutive days. They must mask at all times during school & during school-sponsored activities. They must quarantine from the general population on evenings and weekends, and monitor symptoms for 14 days.

A signed consent form is required to participate in CPS’s COVID-19 testing at school. Log-in to the Family Portal at https://secure1.cpsd.us/family_portal to complete your forms.

I HAVE SYMPTOMS OF COVID

REGardless of vaccination status

Get tested for COVID.
Quarantine at home until you receive your results.

I HAVE TESTED POSITIVE FOR COVID

Whether or not you have symptoms

Quarantine for 10 days from symptom onset and return to school when your symptoms resolve.
Do not come to school. Quarantine at home until you receive your results.

I AM A CLOSE CONTACT OF A POSITIVE CASE AT SCHOOL

NOT FULLY VACCINATED

I have a signed COVID-19 testing consent form & will test at school

Test & Stay (Daily for 5 Days)
Test daily at school for 5 days. At school & during school-sponsored activities, mask at all times. On evenings and weekends, quarantine. Monitor symptoms for 14 days.

I will obtain a COVID-19 test outside of school

Quarantine for 7 Consecutive Days
Return to school on Day 8 with proof of negative test taken on day 5 or later. Monitor symptoms for 14 days.

I will not get a COVID-19 test

Quarantine for 10 Consecutive Days
Return to school on Day 11. Monitor symptoms for 14 days.

FULLY VACCINATED

I have a signed COVID-19 testing consent form & will test at school

Stay at School
Test between day 3 - 5 at school. Monitor symptoms for 14 days.

I will obtain a COVID-19 test outside of school

Stay at School
Test between day 3 - 5 outside of school. Provide negative test results to nurse. Monitor symptoms for 14 days.
